

Chris White 1

The best choice for Regional Party Chair

Dear member

I am writing to let you know my vision for what the Regional Party needs to be doing.

1. Support areas which are struggling with low membership
2. Find new opportunities to enhance campaigning skills in all areas
3. Actively support county co-ordinating committees
4. Encourage members to believe in themselves and our party's policies
5. Harness the energy and experience of young people
6. Be an effective but supportive regulator when council groups or local parties get into difficulties
7. Improve communications between the party and the membership.

If you back these, then please give me your first preference.
