JACQUI MORLEY

YOUR FIRST CHOICE FOR

CONFERENCE & CANDIDATES COMMITTEE

DELIVERING AN ENGAGING REGIONAL CONFERENCE

Over my last two years as Chair of the Conference Committee, I've worked hard, alongside the Conference Committee team to ensure that we deliver an engaging regional conference through a range of keynote speakers, panel discussions and training.

Our keynote speakers have included our region's MPs, the President and Vice President of the Party, the Young Liberals and Peter Taylor (Mayor of Watford). Fringe topics have ranged from Local Government, AI, Diversity and Housing, just to name a few.

Through this, both of our recent Regional Conferences have had some of the highest attendance rates of a regional conference in the country and some of our guest speakers have spoken highly of the programme we have delivered. We have also seen the metrics measured in our post-conference survey improve further from already positive results

Of course, there's always improvements we can make!

If you re-elect me to Conference Committee, I will work with the new team to investigate how we can further diversify and expand the people who attend conference and ensure that our programme continues to be relevant to the needs and interests of campaigners, activists and members across the East of England.

SUPPORTING OUR CANDIDATES TO GROW AND WIN

Much has changed about how the party manages the candidates process and I am sure that the new process will help us to approve and select candidates as timely as possible.

However, the Region still has a place in making sure that candidates and selected PPCs are supported throughout the process, from applying to be approved to winning constituencies!

In standing for re-election, I hope to ensure that, as a committee, we work collaboratively with candidates, PPCs, the other regional committees and local parties to make sure candidates feel well supported and equipped to go out and win new seats into the future.
