WHAT I'VE DONE

Organised action days for Young Liberal Candidates

As East of England Young Liberals Chair, I have organised action days for Young Liberal candidates all over the region- including Shelford this year where we beat the greens by just 10 votes!

Campaigned all over the region

Since being on the regional executive I have been to action days in Essex, Suffolk and all over Cambridgeshire to help our local champions get elected.

Advocated for young people

On the Regional Executive I have always advocated for the party to be more accessible to young people so I have made sure that young members can get involved how they want to such as by attending regional conference or learning how to campaign.

WHAT I'LL DO NEXT

Engage more young members

We have over 250 documented Young Liberals in the region, we should get in contact with these members and get them more engaged.

Inform members about party policy

Work with the Policy Officer to host Policy Webinars before Federal Conferences, and as a member of FPC, let members know how party policy is being developed.

Help small local parties

Small local parties have the frustration of having few people to do work: I want to make sure the regional development plan is implemented to help these parties recruit, engage and train their members so they can win elections.
